PREFACE.

The Publishers have much pleasure in submitting herewith the fourth edition of British Columbia Gazetteer and Directory. The book this year is divided into parts, viz.: (1) A Free Miner's Directory, in one alphabetical list, giving the name, number of certificate and where issued; (2) a Mining Encyclopædia of all mining companies in British Columbia; (3) a Gazetteer and Directory of all cities, towns, villages, post-offices, mining camps and steamboat landings; (4) a Directory of all incorporated Companies other than mining; (5) a Classified Business Directory.

The preparation of Directories, perhaps as vividly as anything else, impresses the compiler with a sense of the progress of the country in all that constitutes material prosperity. Cities and towns are found to have sprung up where a short time ago it was unknown wilderness.

Looking back over the short period of six years since we issued our last British Columbia Directory, we find ample evidence of the expansion in which the people of British Columbia may well take pride and satisfaction. In our 1891 Gazetteer we gave a description of 300 places. The present edition gives a description of 753 places.

The principal work pertaining to our Directories is done by men trained to the task, and who are engaged at it the year round.

To make a Directory absolutely correct is impossible; but we believe that this one is as nearly correct as it is possible to make it with the rapidly changing conditions of a mining country.

Great care has been taken in compiling and revising the work. All of the book is original manuscript copy. In our twenty years' experience of Directory work has been by far the most difficult task we have ever had in hand, which we trust will meet with the approbation of our subscribers.

The general prosperity of the Province is very gratifying, rapidly growing towns, which had no existence when we last issued, have sprung up in the Kootenay and Roseland now ranks as third in size in British Columbia.

The Canadian Yukon gold fields are now attracting the attention of the civilized world. The possibilities for trade in outfitting the vast numbers who are rushing to the section would be hard to estimate. The merchants of the coast cities of British Columbia now have the opportunity of a lifetime.

To our many kind friends who have revised proofs, and without whose assistance could have been impossible to secure other reliable information, we take this opportunity of returning our sincere thanks.

It is our intention to publish this work annually, corrected and revised to date of publication, keeping up with the rapid development of the country.

Thanking our patrons for their encouragement, courtesy and liberal support, our endeavor will be to merit a continuation of their favor.

Respectfully,

HENDERSON PUBLISHING COMPANY, LTD.

ANTLER CREEK MINING CO., Ltd., filed Feb. 27, 1896; capital stock, \$1,000,000 in \$5 shares; office, Vancouver.

ANTOINE MINE; owners, George Alexander, Kaslo, and C. H. Green, Saginaw, Mich.; manager and superintendent, J. C. Ryan; secretary, W. Russell Allen, Kaslo; foreman, Thomas Lester, McGulgan.

Property—**ANTOINE claim**, in McGulgan basin, 3 miles from McGulgan station, on K. & S. Ry. The **ANTOINE** lead is one of the strongest and best in the country. It varies in width from three to five feet. The ore runs from eight to eighteen inches in width, and is found in chutes never far apart. It is steel galena and gray copper. In 1896 a steam hoist and pumping plant was put in, which, with shaft and ore houses, gives the mine complete equipment. The mine has stood this and the expense of development and has been self-sustaining from the start, at the same time paying large cash dividends.

The first ten cars shipped gave smelter returns at 270 oz. silver and 45 per cent lead, uniform in grade. One car containing 15 tons returned \$3,757. The next ten cars varied in grade, ranging as high as 386 oz. silver and 49 per cent lead, making the average of the 20 cars shipped over 200 oz. silver and 43 per cent lead. This is believed to be, next to the Reco and Good-enough records, the highest average grade ore yet shipped from Slocan.

APEX GOLD MINING AND DEVELOPMENT CO. (foreign), filed Feb. 17, 1897; capital stock, \$1,500,000 in \$1 shares; head office, Spokane; reg. office, Rossland.

ARGENTINE GOLD MINING CO. (foreign), registered May 6, 1897; capital stock, \$1,000,000 in \$1 shares; head office, Spokane.

ARGO MINES OF SANDON, Ltd., filed March 8, 1897; capital stock, \$100,000 in 100 shares; treasury, 250,000 shares. President, A. Rutherford Johnson; vice-president, William Wilson; secretary-treasurer, William K. Leighton, Nanaimo; directors, D. E. Campbell, Capt. John Irving W. Christie and R. Punnett; foreman, David McDonald; managing director, A. D. Williams, Sandon.

Property—2 claims, **ARGO and BELT**, and three fractions, **KICKERS, CHRISTIE and GLADSTONE**. Claims adjoin the townsite of Sandon. The Cody track of the K. & S. Ry. runs through both claims. Main tunnel 250 feet; employs 14 men. The first car, shipped June 14, 1897, averaged 82 oz. silver and 60 per cent lead; concentrating ore averages 50 oz. silver and 45 per cent lead.

ARGONAUT GOLD MINING CO. OF KOOTENAY, Ltd., filed Nov. 2, 1895. Directors, Alfred Graham Ferguson, Stephen Ormrod Richards and John G. Woods; secretary, C. C. Bennett, 538 Hastings st., Vancouver.

BLACK CURRANT MINING CO., Ld., filed April 30, 1897; capital stock, \$1,000,000 in \$1 shares; head office, Kaslo. Manager, Charles F. Caldwell, Kaslo.

Property—2 claims, **SNOWSTORM** and **MOUNTAINEER**, on branch of St. Marys River, E. Kootenay. The ore veins have been stripped and run over 100 oz. silver and from 3 to 4 per cent copper.

THE BLACK DIAMOND MINING AND DEVELOPMENT CO., Ld., filed April 3, 1897; capital stock, \$500,000 in 500 shares; treasury, 200,000 shares; head office, Kaslo. President, Maj. S. B. Steele, Macleod, Alta.; superintendent, Treve M. Gibson; secretary-treasurer, Fred Steele, Kaslo; accountant, A. G. Fraser; solicitor, J. B. Clark, Q. C., Toronto, Ont.

Property—2 claims, **BLACK DIAMOND** and **LITTLE DONALD**, located $\frac{1}{4}$ miles south and west of Alnsworth, Kootenay Lake; reached by good wagon road, which runs through the property. The mine has been worked since 1888 and is a well developed property. It has extensive development, shafts and tunnels, and is a regular shipper. Prior to 1897 some 700 tons of ore was shipped from the two claims. On Jan. 27, 1897, the new company took over the property and have been opening up the mine. From that date to the 1st of April about 100 tons have been shipped. On a shipment of 66 tons made in 1889 from the Little Donald returns were received of 95 oz. silver and 65 per cent lead. The ore generally will average 100 oz. silver and 65 per cent lead. The company contemplates putting in a concentrator of 80 tons capacity and tramway. A 200 horse power compressor plant will be put in this season.

BLACK FOX MINE; managing owner, Henry Croft, Kaslo.

Property—**BLACK FOX, DAISY** and **CALIFORNIA**, situated on south fork of Kaslo Creek, 4 miles from K. & S. Ry at Forks and 9 miles from Kaslo. The owners propose to build a 100-ton concentrator on the property at an early date. The mine has well defined leads, carrying large bodies of galena ore.

BLACK HAWK CONSOLIDATED MINING CO., Ld.; head office, Rossland.

Property—2 claims, **BLACK HAWK** and **WELCOMER STRANGER**, situated at the head of Champion Creek, 3 miles east of the Columbia River and 13 miles from Trail. Development—No. 1 shaft, 28 feet in depth, all in ore and no walls reached; No. 2 shaft, 75 feet 9 inches in depth, where the foot wall was reached and a crosscut made at that depth 25 feet across the ledge without any sign of reaching the hanging wall, showing the vein to be very large and strong and of high grade, assaying in gold \$22.73. A New York syndicate has now an option for a bond for \$100,000.

Property—3 claims, **LE ROI**, **BLACK BEAR** and **IVANHOE**, (fraction), located 4 mile northwest of Rossland on the south-east slope of Red Mountain. The Le Roi is the largest and best developed property in the Trail District. The old working shaft is down to the 600-foot level and new skip shaft, double compartment, is down 500 feet. There are over 5,000 feet of horizontal and vertical workings. The surface plant buildings and machinery cost \$150,000, and consist of a 40-drill Rand compressor, 350 h. p. direct acting hoisting engine, sorting house, bins and surface gravity train to Red Mountain track. About 20 per cent. of the ore raised is sorted out and piled on the dump to be treated in the future, when the company have their own plant. First grade ore runs about \$70, and second \$37.50. The Le Roi company commenced the erection of a smelter plant at Northport about the end of July, 1897.

The Le Roi paid its 16th dividend, \$25,000, on July 6, making the total dividends to that date \$450,000. The first dividend was paid in October, 1896, and it is stated that

regular dividends are to continue at the rate of \$25,000 per month. Output is some 300 tons per day, which is shipped by the R M and C & W Rys, both of which tracks are convenient to the mine; employs 200 men.

WHITE PINE MINING CO., Ltd. filed Feb. 22, 1897; capital stock, \$1,000,000 in \$1 shares; office, New Westminster.

***WHITE SWAN QUARTZ MINING AND MILLING CO. OF FAIRVIEW, B. C., Ltd.** filed April 12, 1897; capital stock, \$20,000; office, Victoria.

WHITEWATER MINE: office, Kaslo. Managing owner, Joseph C. Eaton; other owners, J. L. Retallack and J. L. Montgomery, Kaslo, and W. J. Price, San Francisco.

Property—2 claims—**WHITEWATER** and **IRENE** (crown grant March 5, 1897), situated on Whitewater Creek, 1½ miles northwest from Whitewater Station and reached by wagon road. Development, 6 tunnels, with connection, making in all over 2,500 feet. The ledge is 24 feet in No. 3 tunnel and over 30 feet in No. 4; the widest streak of clean ore was 5 feet. Shipments have averaged 12 cars a month from development work. The average returns from these have been 125 oz. silver and 80 per cent. lead. The highest car load ran 362 oz. silver and 60 per cent. lead.

The Whitewater was the first claim located in Whitewater Creek, and put out the first lot of ore that was ever shipped from Kaslo. This was in the fall of 1892, when it cost \$40 a ton to pack it to Kaslo. Even at this high rate it returned its owners a net profit of \$50 a ton.

WILD HORSE GOLD MINING CO., Ltd. filed March 5, 1897; capital stock, \$2,000,000 in \$1 shares; office, Rossland. Trustee, J. E. Parker.

WILD HORSE GOLD MINING CO. (foreign), registered April 12, 1897; capital stock, \$1,000,000 in \$1 shares; head office, Spokane; reg. office, Fort Steele.

Property—**WINCHESTER**, situated near Fairview; average assay, \$152.86.

WINNIEPEG AND EUREKA MINING CO., Ltd. filed Nov. 2, 1896; capital stock, \$50,000 in \$1 shares; treasury, \$50,000; office, head office, Rossland. President, T. Mayne Daly; vice-president, W. A. Daly; secretary, J. Hillyard Leach, Imperial block, Rossland; treasurer, D. D. Birks; superintendent, Capt. S. H. W. bb.

Property—**EUREKA GROUP**, 5 claims; development, 3 tunnels and winze, over 1500 ft. of work. Assays are said to average \$100 all values; gold, silver and lead.

WISCONSIN CONSOLIDATED MINES, Ltd. filed April 2, 1897; capital stock, \$1,000,000 in \$1 shares; treasury, 400,000 shares; office, Kaslo. President, David W. King; vice-president, Peter McPhee; secretary-treasurer, Frank M. O'Brien; superintendent, Daniel M. Bongard, Cody; consulting engineer, W. J. Tretheway, M. E.

Property—3 claims, **WISCONSIN**, **NELLIE B.** and **KOOTENAYAN FRACTION**, situated on Noble Five Mountain, 1,500 feet from Cody, and lay parallel with Noble Five group, below Goodenough and Grey Copper mines. The Noble Five tramway crosses the property. Development, 2 tunnels being driven. The Grey Copper lead is said to run the full length of the Nellie B. and Wisconsin. There are three ore showings on the lead on this property. It is believed that the Kootenayan has the Goodenough lead, as it lies just below that property. Assays from early development work averaged 130 oz. silver and 60 per cent. lead.

WISCONSIN GOLD MINING CO. (foreign), filed March 6, 1897; capital stock, \$1,000,000 in \$1 shares; head office, Spokane.

TO FIND A NAME

YOU MUST KNOW HOW TO SPELL IT

Directory Borrowers.

Many are the complaints of those who regularly patronize the Directory that they are bored so much by borrowers; not the stranger or private citizen who steps into the office, looks at the Directory, and goes out, but merchant business men, who continually need it for reference yet are too close-fisted to be one. These are the individuals who carry off your Directory "just for a few minutes," which generally means a few days unless you send for it before; they have scarcely housed it before some one else presents the request, "Please let me your Directory for a few minutes." Perhaps you won't see it again for a week, yet this same borrower will tell our solicitor that he has no use for a Directory, "knows everybody" and "everybody knows him,"—perhaps, too well.

INVERNESS,

A fishing and trading station on the northwest coast, in Cassiar district. Victoria, dis. 500 miles. Has Methodist church and Indian school during summer by Church Missionary Society. The Inverness cannery is the only industry; it employs from 150 to 200 people during the fishing season, which lasts about 2 months. We have about 200 Indians here during the fishing season, but after work is over there, and no Indians who reside here, only those that are working. Inverness is an important camping place, as it can be reached at all season of the year. Telegraph, Victoria.

KAMLOOPS,

A town on the main line of the C.P. R., 250 miles east of Vancouver, called the "Inland Capital." The name Kamloops is aboriginal, meaning the meeting of the waters, the town being situated at the confluence of the North and South Thompson rivers—the main tributaries of the Fraser—two magnificent streams, one of which (the North Branch) is navigable for 80 miles above the town, while the other is navigable for twice that distance. Its situation is beautiful, healthful, and its climate delightful. In no place in Canada is there longer summer, and consequently a shorter winter—that can be called winter. Though its winters are short and sharp they are bracing and would not be dispensed with if such a thing were possible. Has money order postoffice and savings bank, express telegraph and telephone offices, Bank of B. C., and weekly newspaper the "Inland Sentinel." Episcopal, Methodist, Presbyterian and R. C. churches, public school, daily attendance about 100. Court house and jail; steam saw mill capacity 16,000 ft. per day. A complete system of water works supplies town for fire and domestic purposes. The incandescent electric light used for street and private lighting. Ravens Hall seats 250. Steam run occasionally to Enderby and Verna. The Dominion Industries school is near here. It is the headquarters for the ranchers in the Thompson and the Okanagan valleys.

KASLO,

A city incorporated in 1892, on the Upper Kootenay Lake, at the mouth of the Kaslo river. The terminus and headquarters of the Kaslo & Slocan Ry., which was opened in 1896 and extends to the head of the Slocan mining district, Sandon dis. 23 miles and Cody dis. 30 miles. It is also the headquarters of the International Navigation & Trading Co., who despatch two steamers a day to Nelson 45 miles, and once a week to Bonner's Ferry, 110 miles. The C. P. R. Co.'s steamer Kokanee makes a daily trip from Nelson, and once a week to Laro at the head of Kootenay Lake. It is one of the important distributing points for the main camps of the Slocan district and Kootenay Lake points. Has money order postoffice, savings bank and telegraph office. Distant from New Denver 30 miles.

Kaslo is considered a fine townsite. It is situated on a couple of sloping benches overlooking the lake. The assessed value of property for 1897, excluding exemptions and deductions made by the board of revision is \$471,450. The city owns a \$30,000 system of waterworks, consisting of 3 miles of main from the head works up the Kaslo river, 2 miles of which is 12 inch wood pipe, having a capacity of one and a half millions of gallons per 24 hours, and a reservoir with a capacity of 350,000 gallons, located on the hill back of the city. There are four churches, Church of England, Methodist, Presbyterian and Roman Catholic.

Industrial enterprises comprise large saw and planing mills, a brewery of 25 barrels per day capacity and soda water works. The Kootenay Electric Light & Power Company furnish incandescent light to the majority of buildings and also light the business streets.

Kaslo has a fine athletic grounds, with grandstand accommodation for four hundred people.

The Kootenian, the leading paper of the district, was originally established as the Kaslo Claim in 1894, and changed to its present name in 1896.

Kaslo is an important ore shipping point. In 1893-45 the ore was brought from the Slocan by pack trains, and in 1896, on the completion of the K. & S. railway, these showed a large increase. The following figures are from the customs statistics and show that the shipments for the first three months of 1897 were more than the three years, 1893-45.

Year.	Tons.	Value.
1893....	1,474...	\$ 227,004 00
1894....	2,722...	304,314 00
1895....	1,904...	227,830 00
1896....	11,607...	1,114,076 00

The production for the first quarter of 1897 was 7,979 tons, valued at \$715,701.

The sampler operated by the Kootenay Ore Co. has a capacity of 150 tons per day, and handles a large per centage of the ore shipped from this point. Has two chartered banks, money order post office, telegraph and express offices.

Population about 3,000, and steadily increasing.

NANAIMO,

An incorporated city on the Esquimalt & Nanaimo Railway, 70 miles from Victoria. It has daily mail steamer connection with Vancouver and regular steamers to Victoria, Westminster and Vancouver.

The city fronts on a well-sheltered harbor, and is the centre of the coal mining industry of the island. Since its incorporation in 1874, the city has made continued progress and has Episcopal, Methodist, Presbyterian, Baptist and Roman Catholic churches, public schools, fire department, court house, jail, Dominion government building, postoffice and custom house, money order post-office, telegraph office and telephone exchange. The Nanaimo Free Press (evening) is published daily and semi-weekly. The Bank of British Columbia has an agency.

The principle staple industry of Nanaimo is the production of coal, immense quantities of which are carried from here to all coast points and many foreign ports. The colliery works of the New Vancouver Coal Mining & Land Company, Limited, employ over one thousand men.

NELSON,

An incorporated city (1897) on Kootenay outlet, which is also known as the West Arm of Kootenay lake, 22 miles from its mouth. The terminus of the Columbia & Kootenay railway, which follows the Kootenay river 25 miles to Robson, where connection is made daily with the C. P. R. steamers for Nakusp (89 miles) and Revelstoke (188 miles), also for Trail (25 miles) and Rossland (34 miles). The Slocan branch railway (now building) from Slocan Crossing to Slocan City will give Nelson direct connection with Slocan lake points. It is also the northern terminus of the Nelson & Fort Sheppard railway to Waneta (70 miles), International boundary and Spokane (200 miles).

Nelson is the government headquarters for the southern district of West Kootenay. The offices of the government agent and gold commissioner and deputy registrar of the supreme court being located there. It is also the port of entry for Kootenay customs district and headquarters for superintendent and district freight and passenger agents of Kootenay branches of the C. P. R., and will be the western terminus of the Crow's Nest Pass Railway now under construction. This it is believed will establish Nelson more firmly as the business centre and distributing point for Southern Kootenay.

During the fiscal year ending June 30, 1897, the imports through the Nelson Customs House, which is the port of entry for all of West Kootenay, amounted to \$1,506,598, the du-

ty and other revenue being \$350,078. For the same period the exports were \$4,841,459, composed as follows:

Gold.....	\$2,306,880
Silver.....	1,767,643
Copper.....	518,515
Lead.....	248,421

There are two chartered banks, three weekly newspapers, saw mills, one with a capacity of 30,000 feet per day, sash and door factories, foundry and machine shops. Water-works pressure is adequate for fire and domestic uses. Electric light is furnished by private parties. A new company are putting in an electric power and light plant at the middle falls of the Kootenay river, seventeen miles distant, which will furnish an abundance of power for all requirements.

The principal industry is the Hall Mines and Smelter, which give employment to two hundred men. There are also a number of other mines on Toad Mountain, just back of the city, and others that are tributary, on Salmon river, Quartz creek, Kakanee creek, and other camps on Kootenay lake. It has money order post office, telegraph and express offices and telephone exchange; Church of England, Roman Catholic, Presbyterian and Methodist churches; public schools, and Kootenay Lake General Hospital. Population 2,000.

power plant just across the lake. There is first-class steamer accommodation daily to Rosbery, 3 miles (railway transfer for Slokan Lake points), Silverton four miles and Slokan City 19 miles.

Has money order post office, chartered bank, telegraph and express offices and telephone exchange having trunk line connections.

There are a number of promising mining properties in the immediate vicinity. New Denver has a desirable location for a residential town and is appreciated as such by number of mining men working Slokan Lake properties, who make their homes there.

NEW WESTMINSTER,

Is beautifully situated on the north bank of the Fraser river, 75 miles from Victoria, 18 miles from the Gulf of Georgia. Sea-going ships load at the wharves with lumber and canned salmon. It contains six churches, Episcopal, Reformed Episcopal, Roman Catholic, Presbyterian, Methodist and Baptist, and Salvation Army. Most of these have two or three church buildings. The residences of Episcopal and Roman Catholic bishops are here also, Columbia Methodist college, Central public school, also Roman Catholic convent and college, and some private schools, as well as the Provincial Asylum for Insane and Dominion Penitentiary. The public and business buildings are of brick. The city owns its electric light system, which is self-supporting. The city also owns waterworks with a supply by gravitation from a mountain like, giving in business district 170 to 190 pounds pressure. There is communication with river and Vancouver Island ports, daily or oftener, by steamer. A station on the Can. Pac. Ry. is in the city, and of the Great Northern Ry., immediately opposite, on the south bank of the river. There is one daily newspaper, electric cars run to Vancouver city every hour, distant 14 miles, saw mills, iron foundries, carriage and furniture factories, wood working establishments, feed mill, tannery, etc., etc. New Westminster is the headquarters of the salmon canning and agricultural interests of Fraser Valley, and the distributing point for the river trade. The streets are well kept, with good sidewalks. The climate is mild and equable.

OKANAGAN MISSION,

(See Kelowna.)

A post settlement on the west side of Okanagan Lake, 35 miles from Vernon, from which it is reached by regular steamer. Nearest railway station, telegraph and express office Vernon, dis. 35 miles. Has a flour mill, Roman Catholic and Presbyterian churches. Nearly all the valuable farming land is taken up. This valley is about 10 miles long, in some places 6 miles wide, in others but 2 miles. There are a number of smaller valleys connecting with this valley, but they all go to form the Okanagan Mission Valley. For fruit growing this valley has few equals in B. C. Apples, pears, plums, grapes, and peaches are grown in abundance. These latter trees have just found their way into the valley. In the woods are found black brown, and grizzly bears, wolves and coyotes, lions and wolverine. Of amphibious fur-bearing animals we have otter, beaver and fisher. Deer, cariboo, marmots, grouse, fowl-hens, partridges, ducks, geese, crane and many others much sought after by sportsmen are abundant. Trout and salmon are plenty. The weather is exceedingly mild in summer, it is rarely over 90 degrees in the shade, while the evenings are cool.

Postmaster, Bernard Lequime.

ROSSLAND,

The city of Rossland is situated at the base of Red Mountain, 7 miles in a direct line west of the town of Trail on the Columbia River, and 8 miles north of the International boundary line, at an altitude of over 4,000 feet above the Columbia River. It is reached by the Canadian Pacific Railway Company's steamers from Revelstoke and the Columbia & Western Railway, 14 miles from Trail. The Red Mountain Railway also connects with Northport, Wash., 18 miles distant on the Columbia River, and thence to Spokane, a distance of 150 miles. The mines which have given the city its impetus were first staked in 1890, but for one reason or another they attracted no general attention until the autumn of 1894. Since that time the whole ground immediately surrounding Rossland has been staked off into claims, which are now numbered by the hundreds.

Ross Thompson took up the original townsite as a pre-emption in 1892, and had it surveyed in 1894, calling it after himself.

Incorporation was granted the new city in the summer of 1897, and after the mayor and aldermen were elected they set to work with a will to open out new streets, lay sewers and put the city in the right shape for its ever-increasing development. A water works system and electric light plant are already in operation under the management of a private corporation. An electric power plant, to be utilized principally for mining purposes, is being installed near Waneta, and will afford cheap and convenient working power for many years to come. There are also saw mills, breweries, opera-house with a seating capacity of 1,300, telephone exchange, and trunk line connections with Trail, Nelson and Spokane.

The principal religious bodies have their own church buildings, and the secret societies are well represented. The head offices of a large number of mining companies operating throughout the Kootenay district are located here. Has two chartered banks, telegraph, express and money

order post offices. The population is increasing rapidly, and the city now ranks as the third in the province.

SANDON,

The terminus of the Kaslo & Slocan Ry., dis. 41 miles from Nakusp; has money order postoffice, telegraph and express offices.

The leading mining camp of the Slocan district, elevation 3,460 feet, situated in a narrow valley in the heart of the mining district on the south fork of Carpenter Creek at the mouth of Sandon creek. It is the terminus of the Nakusp & Slocan branch of the C.P.R., 41 miles from Nakusp. The Kaslo & Slocan railway (narrow gauge) gives daily connection with Kaslo, distance 28

miles. This latter road also extends to Cody, 2 miles distant, where there are also valuable mining properties. New Denver, on Slocan Lake, is 8 miles distant.

Sandon is dependent for its prosperity on the mines surrounding. It is situated between two mountains which are said to contain as great riches in galena ore as any other two adjoining mountains in the world. The leading mine, the Slocan Star, was located in 1891, and since that time the camp has steadily progressed, and is now the great producing camp in British Columbia. There are two chartered banks, two weekly newspapers, sawmill with capacity of 10,000 feet, snash and door factory, water works with pressure of 140 pounds, the reservoir capacity of 60,000 gallons. An electric light plant of 1,200 lights is operated by water power. There is a money order postoffice, telegraph and express office. Population, 2,000 with some 1,000 miners employed in the mines of the vicinity.

SLOCAN CITY,

(See Also Brandon.)

A mining town at south end of Slocan
Lake dis. from New Denver 18
miles; and Rosebery 20 miles, from
which point there is a daily steamer
connection with the trains of the
Nakusp & Slocan railway. The Slo-
can Valley railway will place this
town in close connection with Nel-
son, Trail and Rossland, and is to
be in operation in October. The
town is located at the mouth of
Springer Creek and at the head of
the Slocan river. There are prom-
ising mining properties up Springer
and Lemon creeks, for which Slocan
City is the distributing point. A
company will put in a water works
plant and an electric light and power
plant at an early date, using the
splendid water power of the falls of
Springer Creek, which are quite near
the town. Has postoffice, telegraph
and express offices, chartered bank

TRAIL,

A mining and smelter town on the Columbia River at the mouth of Trail Creek; 30 miles south of Robson, from which point there is daily communication by C. P. R. steamers.

The Columbia & Western Railway Co. have their headquarters here. They operate a narrow gauge road to Rossland, fourteen miles, but only seven in a direct line. On this line six passenger trains are run daily. The Robson branch, up the western bank of the Columbia River to a point opposite Robson, will be in operation this fall, and afford rapid communication with all northern points. A. C. P. R. steamer makes three trips a week down the river to Waneta (international boundary) and Northport on the S. F. & N. Ry.

A ferry runs across the Columbia River—very swift at this point—where connection is made daily by stage for Sayward, on the N. & F. S. Ry. Distance, 7 miles.

The British Columbia Smelting & Refining Company's smelter and refinery is the principal industry of the place, giving employment to over 100 men. The company also operate a large saw mill, water works and the electric lights of the town. The C. & W. Railway, which is operated in connection with the smelter and refinery, have their shops on the hill adjoining the smelter plant.

There is money order post office, telegraph and express offices, chartered bank, two churches, two weekly newspapers, theatre, two saw mills, powder mill, machine shop, and a modern brewing plant, with a capacity of 40 barrels per day.

Population about 2,000.

Sheppard Railway to Nelson, 24 miles north and Waukena (international boundary), 30 miles southwest. Has post office, telegraph express office and weekly newspaper. A waterworks plant has been established by a private company, with a reservoir capacity of 50,000 gallons, situated one-half miles southwest of the town, giving a fall of 285 feet through an 8 inch main. An electric light plant is being installed. There are a number of rich mining properties in the vicinity which are being developed, and many promise to be valuable mines. Nearest banking town, Nelson, distant 24 miles. Population 600.

HENDERSON'S VANCOUVER CITY DIRECTORY 1897

STREET AND AVENUE GUIDE.

All the houses are numbered on the system of 100 numbers to the block. The following plan was adopted by the Board of Works on the 13th November, 1890: even numbers on the east and south sides of streets; all short streets to take their number from the through streets and correspond with them.

Carroll street is taken as a base for the streets running east and west, with 100 numbers to the block; on streets running west, Carroll to Abbott, 1 to 99, Abbott to Cambie 99 to 199 (on Cordova the numbers 200 to 299 are skipped, so as to keep it in line with the other east and west streets), Cambie to Hamilton 300 to 399, and so to the western boundary of city.

Streets (west of Cambie) running north and south are numbered from the Inlet as a base. Burrard Inlet to Water 1 to 99, Water to Cordova 100 to 299, Cordova to Hastings 300 to 399, and so on to False Creek, the southern boundary of the city.

Streets lying east of Carroll use Carroll as a base for east and west streets, Carroll to Columbia ave., 1 to 99; Columbia ave. to Westminster ave., 100 to 199, and so on to Broadway ave., the eastern boundary of the city. North and south streets take Burrard Inlet as a base; Burrard Inlet to Alexander, 1 to 99; Alexander to Powell, 100 to 199, and so on to False Creek.

MOUNT PLEASANT. New Westminster ave., over False Creek, starts at 1,500 and runs 100 to the block to 3,000, the southern boundary of the city. Streets running east and west of Westminster ave. are numbered from the avenue as a base, starting at 1 and going eastwards, 100 to the block, and again starting at 1 and going westwards, 100 to the block.

Ten years ago, nine-tenths of the present area of the city was a dense, unbroken forest of high firs, with but a single street and a few rough logging roads leading into the forest; one of these to New Westminster. The timber was being removed at the rate of about \$300 an acre, and the place was being transformed from a wilderness to a city.

HENDERSON'S BRITISH COLUMBIA

a city, when, in a few hours, on the 13th June, 1886, a fire swept the place, and only left a few buildings standing. Phoenix-like, it has sprung from its own ashes, for on the completion in May, 1886, of the C.P.R. into Vancouver, and the arrival of the first through train from Montreal, an impetus was given the growth of the city, and the advancement made is marvellous.

The climate is temperate; the thermometer seldom registering above 90 degrees in the summer, and lower than 10 degrees in winter. The rainy season may be considered from November till March. The driest months in the year are June, July, August and September. Spring is early and mild. Summer is warm, even temperature, cool and pleasant evenings, even after the hottest days. Autumn bright and pleasant. Winter is damp, snow falling occasionally, remaining but a short time, interspersed with clear, beautiful weather, when the majestic snow-capped mountain peaks across the Inlet look dazzlingly beautiful in the sunshine.

The city is laid out on a magnificent scale, and is being built up in a style fully in accordance with the plan. The street names are placed on the houses at the corners. The system of street numbering which allows 100 numbers to each block is fully explained in the street and avenue guide.

Handsome blocks of buildings three and four stories high, built of granite and brick, with all modern conveniences. The residence portion is not lacking in houses that would do credit to any of our Canadian cities.

Nearly all the streets are graded. The important business streets are paved with asphalt, and others are planked. Good wide sidewalks. Streets are well lighted with the electric arc light. Electric motor cars are in successful operation in the principal streets, and are a great boon in bringing the outlying residence portions within a few minutes' ride of the business centre. An electric tramway also connects with New Westminster, distance 14 miles.

The water works system is second to none. The elevation of the reservoir on Capilano River across the Inlet is over 400 feet above high water mark, the average height of the city being about 100 feet; extreme height south of False Creek (Mount Pleasant) 200 feet. Over 60 hydrants are provided for the Fire Department, and they can supply abundant water to deluge any fire. A sewerage system of wooden boxes is giving satisfaction.

The Fire Department was established as a paid department in 1890. It has two stations; each containing a steam fire engine and hose reels, all of which are drawn by horses. There is also a hook and ladder truck at the central station.

Stanley Park, a peninsula of 950 acres, almost surrounded by water, is encircled by a beautiful ten-mile driving road, and intersected by drives and walks.

East End Park contains 160 acres granted by the Local Government. The city has also 40 acres of land on south side of False Creek reserved for park purposes.

Its docks present a lively appearance. From them regularly arrive and depart steamers and ships for local and foreign ports. Several sailing ships are generally anchored in the harbour discharging general cargo or loading lumber at the saw mills, as a large foreign export trade is carried on through them.

That great chain, the C.P.R., binds British Columbia to the eastern part of our Dominion, first giving existence to Vancouver, and is now doing much for its prosperity as well as for the general good of the Province. The Company have been true to their word in making Vancouver their terminus, of which the centralization of their work and machine shops, car factories, etc., in the portion of our city called Yaletown gives the best proof. Vancouver, by reason of its transportation facilities is rapidly becoming the point of the Canadian North Pacific for the transmission of freight and passengers to and from the Orient and Australia.

The Board of Trade are indefatigable in their endeavours to extend the trade of the port, which has already assumed a large proportion of the commerce of the Province, and is steadily increasing.

As to the industries of the city, it is only necessary to examine the following wages and also the classified directory, to realize that Vancouver has a great future before it. Other places have sprung up rapidly, but there is no record on this continent of the building of a similar city with all the improvements of modern civilization in so short a period.

HENDERSON'S

VICTORIA CITY DIRECTORY,

1897.

Victoria, the capital of British Columbia, is one of the beautiful cities of the Pacific Coast, and is situated in the southeast part of Vancouver Island, about an irregular indenture from the strait of Juan de Fuca on the south. The city is built on moderately undulating ground, and contains an area of about eight square miles. The nearest mainland is about 20 miles distant south to Port Angeles, Wash. The nearest Canadian mainland is about 65 miles northwestward by the main route of travel. Vancouver is 90 miles, San Francisco 750 miles and Tacoma 127 miles. Vancouver Island extends some 40 miles farther south than the 49th parallel, so Victoria faces U.S. territory to the south and east.

The Hudson's Bay Company established a trading post at Victoria early in the present century. In 1847 a fort was built there. Five years later, the town was platted, and in 1862 it was incorporated. The first vessel arrived from England in 1845. For many years the Hudson Bay Company practically owned the entire Vancouver Island, and whatever industrial operations were engaged in were related in some manner to the Company's interests. This condition of affairs prevailed to a considerable extent till about the year 1858, when the Fraser River gold excitement drew throngs of miners to British Columbia. In a few months then Victoria developed into a flourishing city, though but few of the twenty-five or thirty thousand miners who spent the winter in that vicinity remained as permanent residents. Still its real growth began at that time, and it has had a gradual and healthy increase since.

No evidence of growth is more satisfactory than that supplied by the liberal expenditure of capital on new business blocks, handsome private residences and church edifices.

The city's mercantile, manufacturing and shipping interests have been developed by the support which it commanded as the central trading point of the Province. Victoria has always been the chief trading point of the entire British possessions west of the Rocky Mountains, because it was so accessible by water, which was the great highway for all commerce.

Until the completion of the Canadian Pacific Railway, Victoria was the only place of importance in British Columbia, now other places are springing up. It could not be expected, with a province so rich in coal, minerals, lumber and fish, that one city would long remain the only distributing point for so vast and rich a territory. It is the ocean gateway to the Province, and must ever command and receive a large portion of the interior and coast trade.

Until the completion of the northern transcontinental railways, the chief route for travel or traffic was by way of San Francisco or Portland, so it was no small advantage that Victoria was situated comparatively near these great commercial centres to the south. It is the oldest city in the province, and also the commercial metropolis and social centre. Shipping from all parts of the world enters the harbor, making it an important port of the Pacific seaboard.

No limit is known to the scope for industrial development on the Island, which is three hundred miles in length northwest and southeast, an area of about twelve thousand miles, which territory may be considered as tributary to Victoria, and from the smaller islands of the adjoining waters and from the mainland much business flows to the capital city. The government is administered from here, and, if no other reason existed, that alone would have a tendency to draw business. The Victoria custom house shows by far the largest business of any port of the Province, and ranks as fifth port of the Dominion.

The main thoroughfares are clearly defined for long distances, but in all parts of the city are streets of varying widths, joining each other at every conceivable angle. Many streets are lined with shade trees. The streets and roads are all macadamized.

An electric tramway is in operation on the principal streets. The city owns its water works system, which cost upwards of \$400,000, and returns a very handsome revenue on the investment. The commercial value is said to be \$1,200,000, and is ample for the needs of the city. The street electric lighting plant is also owned and operated by the city. There is also a gas works plant. An efficient paid fire department with the latest improved equipment gives ample fire protection.

Victoria is a city to delight the heart of the tourist. In a drive over any of the excellent roads leading out from the city, the eye rests upon an enchanting landscape, handsome residences with well kept grounds and gardens, and on every side evidences of wealth and culture.

It is a favourite winter resort, not only for the people of British Columbia, but for many south of the line, while in summer it is filled with tourists. No place on the Pacific coast offers more comfort, better climate or more beautiful scenery; and no city of its size in the Dominion has so many wealthy residents retired from active business.

Beacon Hill Park is the favourite resort. It occupies a large tract of ground in the eastern side of the city, being washed by the waters of the Straits of Juan de Fuca. A slight elevation, around which is a race track, gives the park its name. The park itself is a rare combination of the beauties of nature and artistic design. Three artificial lakes have been excavated, into the smaller one of which goldfish have been placed. A number of wild animals and birds are in cages or inclosures. Good roads and footpaths enable visitors to go comfortably all over the park. This is a great resort for all kinds of athletic games, and a favourite one with tourists, especially as the outlook from it is most grand, overlooking the broad strait, with the snow-capped Olympian Mountains plainly in view, on the mainland of Washington to the south, and the majestic peaks of the Cascades relieving the landscape to the southeast and east. From the higher points of the city can be enjoyed perhaps the finest landscape views of mountain, water and islands that are to be seen in any part of the world.

The north arm of the harbour, which forms a gorge about a mile from the city, is a favourite resort for boating parties.

The city is amply provided with educational facilities, both public and private, and has a free public library. The churches are well represented.

The Royal Jubilee Hospital, built in the outskirts of the city, on a tract of 19 acres of land. There is also a private hospital.

Not alone as a growing city of promising prospects does it attain its full importance. The strategic point which it occupies as a national post of observation, supply and defence entitles it to the consideration it receives from Her Majesty's home government.

Esquimalt harbour, about three miles to the westward of Victoria, is the site of the British naval station. It is probably the best one on the shores of Vancouver Island. It being a perfectly land-locked refuge, and easy of access for vessels of the deepest draught, war vessels are stationed there constantly, and it is general headquarters for Her Majesty's navy in the Pacific. Facilities are provided for doing all sorts of repairing for ships. A dry dock 450 feet long and 27 feet deep, with an entrance 55 feet wide, was constructed at a cost of about \$900,000. The arsenal contains large quantities of stores and ordnance supplies of all descriptions. The Royal Naval Hospital and cemetery are located there. Quite a town has been built up about the dry dock.

Though located on an island, Victoria does not suffer from the lack of outside communication; as that fact might imply. The harbour is generally a lively place, especially during the summer season, for then the ships that do the carrying trade between here and England generally arrive with large cargoes of merchandise of all kinds, for general distribution in the Province, and by them are returned those cargoes of salmon, lumber and furs, the principal exports of the Province, and for which she is noted. The Alaskan steamers of the P.C.S.S. Co. make Victoria their clearing port north bound, and entry port south bound.

Victoria is a metropolitan city, and betrays it to the eye of the least practical observer. Its position is such that it will always be the distributing point for a large amount of territory, and its numerous banking corporations have given it a prestige as a financial centre that the commercial revolutions of the next few years will be powerless to disturb.

TO FIND A NAME YOU MUST KNOW HOW TO SPELL IT

Directory Borrowers.

MANY are the complaints of those who regularly patronize the Directory that they are bored so much by borrowers; not the stranger or private citizen who steps into the office, looks at the Directory, and goes out, but merchants, business men, who continually need it for reference yet are too close-fisted to buy one. These are the individuals who carry off your Directory "just for a few minutes," which generally means a FEW DAYS unless you send for it before; then you have scarcely housed it before some one else presents the request, "Please lend me your Directory for a few minutes." Perhaps you won't see it again for a week; yet this same borrower will tell our solicitor that he has no use for a Directory, "he knows everybody" and "everybody knows him,"—perhaps, too well.
